## The Best Fit For Your Dog

### Individual and Specialized Care for your Pet

Have you ever considered socializing your pet, but are unsure how they would do in a group environment? Our specialized assessments and care will guide you in the best decision for your dog to have a well-balanced social life. We offer Doggy Daycare for those that get along with other dogs in a large group setting. For dogs that do not fit in group play, we offer our Day Resort or Activity Center.

We offer two options for those dogs that cannot participate in off-leash play with other dogs. The dogs who are not a candidate for group play will be referred to our Day Resort. Day Resort is the same as if your dog were in a typical day of lodging, except it does not stay overnight. These dogs will be located near the Daycare dogs and stay very active throughout the day. They will receive three (3) potty breaks a day depending on the accommodation of your choosing. Additional one-on-one activities may be added to specialize your dog's day at the resort. This program is offered as

**We believe every dog deserves exercise and mental stimulation for good health!**

an option for any dog, based on our evaluations or client preferences. The Activity Center is perfect for our fearful, shy, less social, or easily over-stimulated dogs. Based on our evaluations, dogs that are recommended for this program will participate in engaging activities and one-on-one time with our

trained staff members. Our focus will be on keeping your dog's mind and body occupied in a less stressful environment and working toward the goal of allowing them to be introduced into daycare group play. This program is offered as an option for any dog, based on our evaluations, as we believe every dog deserves exercise and mental stimulation for good health. There is a 1-month curriculum developed for each dog to work toward entering Doggy Daycare group play. Dogs in Activity Center will receive a weekly status update.

# Meet Sachi, Austin and Yuki Argabright

Austin and Sachi Argabright joined our Pet Spa family in Doggy Daycare in August of 2018. Their favorite part about coming to the Orrville Pet Spa & Resort is the comfort of knowing their puppy, Yuki, is being well taken care of throughout the day. Their most treasured moment is when she

jumps into their arms after a tiring day of playing with her 'fur'ends. The Argabrights' favorite activity to do in their spare time with Yuki is teach her new tricks. She enjoys practicing these new tricks at home,

as well as with her friends at Doggy Daycare.

Yuki has made a lot of new dog friends here at the Orrville Pet Spa & Resort, but her favorite of them all is her "sibling" Sonic.

New Year, New You >>>

## A winter solution to keeping fit New Year, New Dog, New You

K9 Fit Club can offer you and your dog the PERFECT solution to keeping your workout regimen during the cold, winter months.

Starting in January, K9 Fit Club will begin new sessions of personalized classes. These classes will include a personal instructor to customize your exercise routine to you and your dog's ability. These one-of-a-kind workouts will benefit 'both ends of the leash' for you and your dog. While you push yourself to your full potential, you're also keeping your dog active and healthy. Stimulating their brain will also keep the workout fun for all!
